

Linn-Benton
COMMUNITY COLLEGE

Your path is ahead.

pursue.

LBCO
ROADRUNNER

your future is worth
pursuing.

College can be a **compass**. The call of your heart, the glimmer of a future you hope to make real. College can guide you to take the **next step forward**.

At LBCC, you can pursue your interests. **Define your path.** We'll be there to support you with personal attention like advising, tutoring and clear guides that make your road through college a great experience.

Pursue your future.
We believe you can. LBCC is the **perfect place to start.**

be
LB

Student to Teacher ratio:

19:1

pursue your interests in over **30** clubs

Over **\$350,000** in scholarships available

pursue your passion in one of over **85** programs

FREE PARKING 

 **Great food**
prepared by our award-winning culinary arts students

discover

why LBCC is a great college

 Our in-state tuition & fees are **less than 1/2** of what you would pay at a state university, and 1/10 the cost of many private institutions.

Average **15 million dollars** in financial aid awarded

 Meet international students from over **25** countries

LBCC is a launchpad for **great careers**. If you're looking to enter a field that requires high technical skills like healthcare, industrial maintenance, aeronautics testing and more, LBCC has partnerships with industry representatives throughout the region to help get you there. Our partners take an active role in shaping the classes you'll take, ensuring you get the best, most up-to-date training to step into a great-paying job in a rewarding career – often in two years or less.

Careers you can jump into in two years or less:

- Dental Assistant
- Medical Assistant
- Occupational Therapy Assistant
- Mechatronics Industrial Technician
- Welding
- Automotive Technician
- Non-Destructive Test Technician
- Computer Systems Technician

find
your career

follow
your path to a four-year degree

Looking to earn a four-year bachelor's degree? Starting at LBCC provides you with a **strong foundation** to transfer to any college in the country. Spending your first two years at a community college prepares you better than those who begin at a university. Plus, choosing LBCC for your first two years saves you thousands of dollars...making LBCC your smart start to a strong academic path.

Each year, LBCC students majoring in everything – from art to engineering to education and more – **transfer to many different universities**, including:

- Oregon State University
- University of Oregon
- Portland State University
- Oregon Institute of Technology
- Western Oregon University.

chart *your course*

Maybe you
don't know
your exact
road yet...
that's ok.

Although we offer more than 85 programs, at LBCC we help you get started by offering just seven different core areas of study – which we call **meta majors**. Each meta major lays the groundwork to help you narrow your focus for a chosen field. Begin with where your interests are – and get into the right classes that will apply toward whatever degree you choose. It's your time to discover your passion and **chart your course**.

*your options with
the LBCC/OSU
degree partnership
program*

Planning to attend Oregon State University? No need to wait. You can be a student at LBCC and a student at OSU...at the same time! Our **Degree Partnership Program** with OSU is one of the most innovative university partnerships in the country.

Here's how it works: you can take classes at either school, or both, at the same time. LBCC will make sure you get the exact courses you need to meet your OSU degree requirements. You can live the OSU student life with access to housing, Dixon Recreation Center, activities, athletics and more—and take advantage of LBCC's lower tuition rate and smaller class sizes. Both schools share your transcripts and your financial aid applies to both schools. Ask us how to get started on one of the best options for navigating a university degree in Oregon.

live

roadrunner pride

It's great to be an LBCC Roadrunner! Our students are active in more than 30 clubs, are champions in sports like baseball, basketball and volleyball, and learn in future-focused labs set in century-old oak groves.

LBCC's primary 104-acre campus is in Albany, and includes an equine center located just down the road. We also offer classes at the LBCC Benton Center in Corvallis and at our centers in the rural communities of Lebanon and Sweet Home.

Our Advanced Transportation Technology Center in Lebanon provides students with high-tech training in automotive, heavy equipment and diesel repair, and our state-of-the-art Healthcare Occupations Center, also in Lebanon, provides instruction for students in our healthcare related programs.

Smack dab in the Willamette Valley – From our central location in the beautiful Willamette Valley, it's easy to access local mountains, rivers and our beautiful Pacific Ocean. Whether you enjoy walking, hiking, biking, skiing, water sports or beach combing – nature is always close. Nature not your thing? There's plenty of city life here, too. Lots of shopping, entertainment, night-life and good eats can be found locally or via a quick drive to nearby larger cities of Salem, Eugene and Portland.

make

the smart choice

Yes, you can go to college! You can discover your passion, prepare for a great career, and make friends and memories that last a lifetime. And you can do it all for **far less money** when you choose Linn-Benton Community College.

At LBCC, our priority is helping you succeed. We do whatever we can to help you remove financial barriers, like help with financial aid, advising, emergency assistance and more. Plus we offer more than 150 scholarships to help our students achieve their goals.
